

# Supply Chain Consulting Services

## Consulting Services

Triple (EFF) Supply Chain Consulting can provide a number of consulting services for your business to make sure you're operating at your full potential. We have expertise and experience to deliver key supply chain, manufacturing, and logistics initiatives to your company.

## Performance Improvement

Successful supply chain operation is necessary to gain a competitive advantage and to keep your customers satisfied. Triple (EFF) will assess your operations and determine current baseline so that you can determine steps for improvement, this will provide a clear path forward for improvement. The use of proven processes and procedures that are template driven make it easy to understand for everyone involved. Triple (EFF) can show you the best way to maximize your supply chain and also guide you in prioritizing the areas you need to focus on in order to keep improving.

- End-to-end process mapping
- Site safety reviews
- Site health checks
- Detail pallet usage via pulse checks
- Dashboards and KPIs
- Productivity measures
- Continuous improvement initiatives

**flexible solutions for  
your business needs**

## Analysis for Improvement

Triple (EFF) has a number of tools and services to analyze and implement processes that will help your company show others in the industry What Good Looks Like. Triple (EFF)'s knowledge of Indonesia and the rest of Southeast Asia means that we can look closely at your business and its supply chain operation from start to finish. Triple (EFF) can develop a plan to focus on the strengths and minimize the weaknesses in your supply chain. In addition to improving the supply chain itself, Frank looks at areas related to the supply chain, such as site safety. Triple (EFF) can introduce improvement initiatives and measure your productivity.

## INVESTMENT

### Rate Table

Indicative daily rates have been established and a full pricing strategy can be customized to suit your needs.

Product/Service	Description	Price
Business review with existing senior management.	Discovery	A) Daily rate of US\$925. B) Relevant airfares and hotel accommodation (all supported with accompanying invoices) C) Daily rate of US\$50 meals & taxi fares
Operational Health check	Review of current operations	Depending on size of operation 1 or 2 days at US\$ 925/day
Process Mapping	End to end view of current business activities	Typically, this is a 5 to 8-day process and will be at the daily rate US\$ 925, therefore 4,625/7,400
Commence research and data collection	As per above, details driven by project specifics	As above

The above pricing is effective for 30 days.

### Engage Us

To proceed with this project, Triple EFF will need a detailed project brief
